JOSEPH SEYBOLD, obs Sept14-1m carrency about to be issued by the Treas-

ury Department, have been sent out to government officials. From the present issue it materially differs. It is dissimilar not only in design, but in color also. The ground work of the fifty cent note is black, with a gilt stamp in the centre, surrounding the portrait of Washington. At the four corners and at each side of the head of Washington, appear the figures "50," while "Fifty Cents" is inscribed above the figure of Washington, and "Fractional Currency" is printed below. At the top are the words, "Furnished only by the Assistant Treasurer and designated depositaries of the United States." At the bottom, Receivable for all United States stamps. Act approved March 3, 1863." The main part of the face is occupied with a picture of steamboats, locomotives, cotton bales, &c., very delicately shaded. The reverse of the fifty cont note is mainly red in color. A large "50" appears in the centre of a shield. Around it are the words, "Exchangeable for United States notes by the Assistant Treasurers and designated depositories of U.S. in sums not less than three dollars. Receivable in payment of all dues to the United States less than five dollars, except customs." A very large "50," gilt in outline, also appears on the

Meanwhile, the old issue is fast wearing out. A cotemporary describing a pile of the old currency says it looked like a dismantled crow's nest. The appearance of the new currency will be welcomed. Upon the old issue the government made a handsome profit. A large per centage of the money will never be presented for redemp-

BOY MICHAELMAS .- The festival of Michaelmas occurred on Tuesday, and was celebrated in the Catholic and Episcopal churches. In the Catholic countries the ceremonies in honor of the archangel are usually very grand and imposing. In the churches of that faith the festival is called the feast of the dedication of St. Michael, from the fact that the Pope Boniface III dedicated a church to him in Rome, A. D. 666. As Michael is reported the guardian angel of the church, this festival was dedicated to him A. D. 437. He was styled Saint in the time of Constantine the Great, for that monarch dedicated a church to Michael about four miles from Constantinople, which was called "Michaelon," there having been four other churches dedicated to him in the same city. The churches dedicated to the archangel are usually in elevated positions, probably because he is considered the highest angel amongst the hosts of heaven.

GRAPE EXHIBITION IN PITTSBURG Mr. Knox will exhibit, at his Horticultural Rooms, No. 29 Fifth street, on Wednesday October 7th, and during the balance of the eek, a rare collection of native Grapes, embracing over twenty varieties of the newest and most valuable kinds. We doubt not this exhibition will attract

great attention. It will afford parties wishing to engage in grape culture a fine opportunity to see the different kinds and determine which are the best, either for wine or the table. A competent committee will be appointed to examine the fruit, both at the rooms and at the extensive vineyards of Mr. Knox, whose report will be looked for with great interest.

NAMING THE STREETS AND NUMBER-ING THE HOUSES .- The want of proper numbers by which the houses of the city may be distinguished, has been seriously felt for some years. At present not half the houses are numbered and it is difficult for a stranger to direct himself to any particular point. It is a remarkable fact too that not more than half of the residents of the city know the names of any but the most prominent streets. The names of the streets should be placed upon the corners of the corner houses or upon the lamp posts. It would cost but a trifle to make this improvement and much contusion and inconvenience would be saved, particularly to strangers, The All Bride Callan
